

### Subpart D—Payment Provisions

#### § 226.9 Assignment of rates of reimbursement for centers.

(a) The State agency shall assign rates of reimbursement, not less frequently than annually, on the basis of family-size and income information reported by each institution. Assigned rates of reimbursement may be changed more frequently than annually if warranted by changes in family-size and income information. Assigned rates of reimbursement shall be adjusted annually to reflect changes in the national average payment rates.

(b) The State agency shall either:

(1) Require that institutions submit each month's figures for meals served daily to participants from families meeting the eligibility standards for free meals, to participants from families meeting the eligibility standards for reduced-price meals, and to participants from families not meeting such guidelines; or

(2) Establish claiming percentages, not less frequently than annually, for each institution on the basis of the number of enrolled participants eligible for free, reduced-price, and paid meals; or

(3) Determine a blended per-meal rate of reimbursement, not less frequently than annually, by adding the products obtained by multiplying the applicable national average payment rate of reimbursement for each category (free, reduced-price, paid) by the claiming percentage for that category.

(c) States have two methods of reimbursing institutions. The method chosen by the State agency must be applied to all institutions participating in the Program in that State. These methods are:

(1) Meals times rates payment, which involves reimbursing an institution for meals served at the assigned rate for each meal. This method entails no comparison to the costs incurred by the institution for the meal service; and,

(2) Meals times rates or actual costs, whichever is the lesser, which involves reimbursing an institution for meals served at the assigned rate for each meal or at the level of the costs actually incurred by the institution for the

meal service. This method does entail a comparison of the costs incurred to the meal rates, with the costs being a limiting factor on the level of reimbursement an institution may receive.

(d) In those States where the State agency has chosen the option to implement a meals times rates payment system State-wide, the State agency may elect to pay an institution's final claim for reimbursement for the fiscal year at higher reassigned rates of reimbursement for lunches and suppers; however, the reassigned rates may not exceed the applicable maximum rates of reimbursement established under § 210.11(b) of the National School Lunch Program regulations. In those States which use the method of comparing meals times rates or actual costs, whichever is lesser, the total payments made to an institution shall not exceed the total net costs incurred for the fiscal year.

#### § 226.10 Program payment procedures.

(a) By the first day of each month of operation, the State agency shall provide an advance payment to each institution electing to receive such payments, in accordance with § 226.6(b)(10). Advance payments shall equal the full level of claims estimated by the State agency to be submitted in accordance with paragraph (c) of this section, considering prior reimbursement claims and other information such as fluctuations in enrollment. The institution may decline to receive all or any part of the advance.

(b) For each fiscal year, the amount of payment made, including funds advanced to an institution, shall not exceed the amount of valid reimbursement claimed by that institution. To ensure that institutions do not receive excessive advance payments, the State agency shall observe the following procedures:

(1) After three advance payments have been made to an institution, the State agency shall ensure that no subsequent advance is made until the State agency has validated the institution's claim for reimbursement for the
